PLAN AHEAD - HOW WILL YOUR TRAVEL BE AFFECTED?

You may be affected by road closures associated with Vélo South. Where possible we recommend planning travel ahead. On the day you can also use Google maps or a satellite enabled/live update GPS to navigate around the road closures as the route and road closures will be updated live.

In order to ensure the safety of the participants and the general public on the day there will also be parking restrictions in place along the event route. For those affected we advise using local parking locations, your own driveway or alternative roads clear of the route.

Whilst the cycling route will be closed to vehicles, pedestrian access is not restricted. All we ask is that you take extra care when navigating roads along the route.

Supplementary information regarding local access for a number of communities in West Sussex is available to download at www.velosouth.com/the-route/road-closures/
