---

We are taking a smarter approach to the way we prevent, detect and tackle crime.

*“The launch of our local policing model and vision for future policing shows our commitment to maintain the safest communities in Sussex” CC Giles York.*

The final change has been made to the force's new local policing model, which aims to keep people safe and feeling safe.

Newly-formed Prevention Teams – made up of skilled PCSOs, officers and staff, and formerly known as Neighbourhood Policing Teams – are now working more efficiently and effectively to prevent crime and to actively target local issues.

The teams will patrol the streets of Sussex where they can make a difference and work closely with partners to provide better solutions and improved outcomes.
